Internship Program Admissions

<p>The University of Rochester Medical Center’s Doctoral Internship Program is offering 8 full-time positions; 4 in our Child and Adolescent track, and 4 in our Adult track. 1 position is a general adult track and there will be three adult track specialty areas: Deaf Wellness, Lazos Fuertes, and Health Psychology. If the specialty slots are not filled, they will roll over to a general adult slot. We offer integrated care (medical, school), outpatient and inpatient rotations and training experiences with excellent supervision. We require applicants to have had a breadth and depth of prior clinical training in both assessment and psychotherapy experiences that are relevant to the track desired. We expect a reasonable ratio of individual supervision to clinical hours and also take into account group supervision hours. Prior clinical experience administering and interpreting major cognitive and personality tests is also required, with a minimum of 4 integrated testing reports. A particular interest in, and/or experience with, diverse populations is highly desirable.</p>
--

Total Direct Contact Intervention Hours	Yes		Amount: 450
Total Direct Contact Assessment Hours	Yes		Amount: 100

<p>We require our candidates to be in an APA accredited clinical or counseling psychology graduate program attaining a doctoral degree of PhD or PsyD.</p>
