Wilmot Cancer Iaccelerating current research tow
problems. Successful projects will engage Res
research. Proposals should involve at least one
Microenvironment research programs.

include the components listed below. Follow specific application instructions available. Upload your completed application here.

- x Face Page (see instructions for format)
- x Plain language (lay) abstract (10 lines)
- x Specific aims (1 page)
- x Project proposal (3 pages), organized under the headings of background and significance (including catchment area relevance and alignment with the Wilmot strategic plan, as appropriate), innovation, and approach (including feasibility, project timeline and milestones)
- x Bibliography and references cited (no limit)
- x Plans regarding the use of vertebrate animals or involvement of human subjects
- x Budget and justification
- x PI biosketches (NIH format)

Application Review Information

The review panel will include Wilmot Research Program COE Liaisons, CCAC Chairs, COE Leadership, and at least two members of the Our Voice Your Science pilot project team. Additional reviewers with specific subject matter expertise may be invited. Wilmot research representatives and COE Leadership will lead the scientific review. Community representatives will lead the discussion on community engagement, dissemination of findings and integration of RACs.

Stage 1

The review panel will confirm eligibility and review statements of intent. The most competitive and responsive projects will be invited to submit full applications.

Stage 2

In stage 2, the review panel will review invited full applications, using a process similar to NIH peer review. Applications will be scored and ranked by the review panel. The Wilmot Executive Ci(an)2.2 .3 (it)-2.9 3.4 (p)2.3 (an)2.3 (n)2.2 (e)-3
