

## The Ernest J. Del Monte Institute for Neuroscience Pilot Program for 2022

The Ernest J. Del Monte Institute for Neuroscience (Del Monte) is pleased to announce the availability of up to 20 pilot project awards (maximum budget of \$50,000 per award) to support novel basic, clinical and translational projects in the neurosciences. These awards will be supported under five programs for 2022 and are open to all faculty members across both the Medical School and the Undergraduate Campus. Funds available for this year's program are over \$675,000. Del Monte supports the following programs:

**The**  
per award) for

supports pilot and feasibility awards (up to \$50,000

The program supports basic, translational, and clinical research for biomedical and behavioral studies. These awards

Reporting - Following receipt of an award, investigators will be contacted to update their reported data annually for ten years.
