

partners can take to support the mental health and substance use needs of adults with disabilities.

- Charmaine Wheatley, Artist in Residence, University of Rochester, Golisano Children's Hospital
 - : Thursday June 9, 2022, 12:00pm, ET
 - This presentation will share some of the watercolour portraits that I have created at URMHC, including portraits of older adults affected by OUD. I will also describe the process by which I create these portraits and build the trust necessary for people to speak openly with me about their lives and experiences, including OUD.

- Charlotte Crawford, RN, MSN, MBA, Consultant
- : Friday, June 24, 2022, 12:00pm ET
- The opioid epidemic continues to exist, stressing the importance of early recognition of an individual experiencing an overdose. Now more than ever the importance of having Narcan readily available and the knowledge on the use of Narcan can and will save lives. This presentation will cover the Good Samaritan Law, how to administer Narcan, and the importance in calling 911 for all overdoses. Reporting the use of Narcan will provide important data to the State, which in turn can increase funding to address this issue.
