

Faculty Position in Hematology

The Hematology-Oncology Division at the Wilmot Cancer Institute, located at the University of Rochester, is recruiting an outstanding hematology board-certified/board eligible clinical investigator for an expanding academic and clinical program. He/she will join a team of nonmalignant hematologists who work collaboratively with the other members of the division. A three-year ACGME accredited fellowship program in Hematology/Oncology is offered, which requires a 3-6-month rotation in the nonmalignant hematology

Successful MD, MD/PhD, DO or MBBCh degree applicants will have demonstrated or have the potential for outstanding research relevant to benign, nonmalignant hematology. The
