

Faculty Focus: Shubing Cai, Ph.D.

What does your research focus on?

My research is mainly focused on access to and quality of care among vulnerable older population, including nursing home residents, older adults with dementia and minority older population.

Why did you choose to do research in public and community health?

I am a health services researcher with the background as a clinician. Doing research in this field is a clear choice for me.

What do you enjoy most about University of Rochester?

University of Rochester has an excellent research environment. I enjoy research opportunities and collaborations with other researchers at the University. I also enjoy very much working with students.

What opportunities are there for students to engage in your projects, both current and future?

I welcome doctoral students to participate in my research and to develop their own project.
