

KAWASAKI STEEL TECHNICAL REPORT

No.4 (December 1981)

Special Issue on Steel Pipe

Polyethylene Coated Large Diameter Pipe - Its Manufacture and Quality -

Hajime Mottate, Kazuhiko Miura, Jun-ic

Polyethylene Coated Large Diameter Pipe*

Its Manufacture and Quality

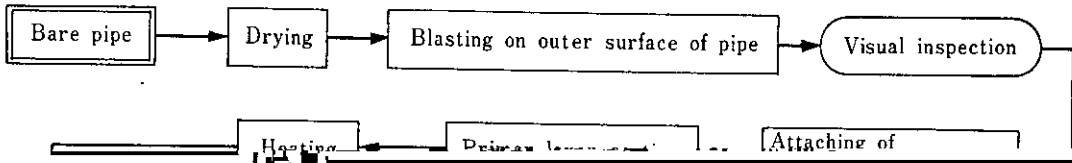

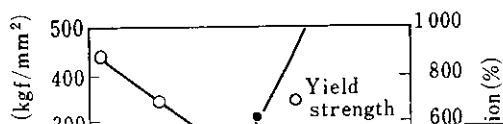

Table 3 Properties of coated material

Density	ASTM D 1505-67	g/cc	0.950-0.955
	ASTM D 1505-67		0.950-0.955

3.2.3 Relationship between tensile properties and temperature

A tensile test was conducted (JIS K6760 method)

ture, Kawasaki Steel desires to contribute to the construction of highly reliable pipelines, while developing
