

Stainless Steel Flake Paint, PHOENIX*

1 Introduction

For rust prevention under highly corrosive environmental conditions such as in seawater and tidal winds

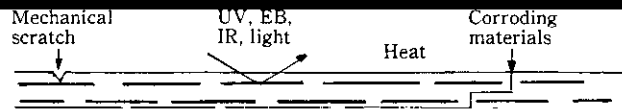

Table 1 Types of PHOENIX

Type	Resin	Application
E type	Epoxy resin	Heavy duty coating
AU type	Acrylic urethane resin	Heavy duty coating, weather resistance- coating

give the so-called "super-heavy-duty coating," we recommend, as a top-coat paint, the urethane resin paint, **KAWAKARON U**, which has excellent weathering resistance and corrosion resistance. If more weathering-resistance is required, a fluorine resin paint, **KAWAKARON FR** can be used

Industrial plants

Steel towers

Structures such as chemical plants and waste water treating facilities, general structures, and outside surfaces of pipings, tanks, smoke-stacks

Power transmission towers, etc.

side the Company include anti-tidal steel doors, power
